

## **Coffman Statement on President Obama's Libya Address**

**(WASHINGTON)** – U.S. Rep. Mike Coffman (R-CO) released the following statement today in response to President Barack Obama's address on Libya:

“In tonight's speech President Obama was not honest and forthright with the American people. This mission has already expanded from implementing a 'no-fly' zone for humanitarian purposes to attacking Gadhafi's tanks, artillery, and ground combat support elements,” Coffman said. “The Libyan mission is all about regime change and it sets a dangerous precedent for setting the United States on a more interventionist foreign policy.”
